

## WE HONOR YOU TODAY

**By Nancy Roché and Tom Frazee**

*Written for the World Sports Humanitarian Hall of Fame Inductee*

You've made your mark  
You know you could have stopped  
And you'd always be a hero in our eyes.  
But you cared enough  
To give more of your heart  
That's more than most of us  
Would ever do with our lives.

(Climb):

We've been your fans, with good reason  
Roared from the stands every season  
But now we are in awe  
watching in wonder

(chorus):

Understanding the way  
That in life, you have made the greatest play  
Out of the park, into our hearts  
We honor you today.

We never knew  
The depth of what you do  
With a quiet dedication in your soul  
No glory sought  
in the battles you have fought  
with silent steps you build  
a better place for us all
